

Vitaliy Panteleymonov

Trainee / Junior FullStack Developer

Odesa, Ukraine · +380 97 486 18 78 · panteleymonov2002@gmail.com · Telegram: @vitaglik

ABOUT ME

A motivated web developer focused on creating reliable and scalable web solutions. My primary tech stack includes JavaScript and PHP; I also use Python for solving logical problems and automation. I have experience in the full development cycle: from interface and logo design to working with SQL databases. Always open to learning new technologies and tackling complex technical challenges.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), JSON
Backend	PHP (MVC architecture, PDO) — actively learning
Database	MySQL — CRUD operations, relational schema design
Tools	Git, GitHub, PHPStorm, OpenServer
Other	Python (fundamentals, scripting & automation)

PROJECTS

Online Grocery Store

PHP · JavaScript · MySQL · HTML/CSS · MVC · PDO

A full-featured web application for an online grocery store built as a personal project to apply full-stack skills in practice. Implemented a complete development cycle from database design to UI.

- User registration and authentication system with session management
- Product catalogue with category filtering
- Admin panel for product and order management
- MySQL database with normalized relational schema (CRUD operations via PDO)
- MVC architecture with clean separation of concerns
